EDUCATION

2017-2020
GOLDSMITHS, UNIVERSITY
OF LONDON

- BSC - Creative Computing

SKILLS

- Python (Pandas, NumPy, PyTorch)
- AI/ML (NLP, Computer Vision, Model Training)
- Automation (File handling, Data pipelines, PDF/CSV tools)
- Git/GitHub, APIs, Flask

LANGUAGES

- English (Fluent)
- Hungarian (Fluent)
- Japanese (basic)

PROFILE

Python developer with hands-on experience in automation, AI model building, and practical freelance projects. Skilled in turning ideas into working tools (scripts, apps, AI assistants) and eager to bring problem-solving mindset into a team role.

PROJECTS

Eon - Personal AI Assistant

(GitHub: <https://github.com/K4en/Personal-AI---Eon>)

- Built a chatbot framework with custom memory and reasoning, integrated with APIs, designed for personal growth and non-dependency use.

Building Classifier

(GitHub: <https://github.com/K4en/BuildingClassifier>)

- Custom CNN model for architectural style classification, from data scraping to training pipeline (no pre-trained shortcuts).

Bulk File Renamer

(Fiverr/GitHub: ...)

- Script/app allowing custom rename rules for large batches of files.

Folder Sorter & PDF Splitter (Freelance tool)

- Automated organization and processing of files, built for non-technical users.

WORK EXPERIENCE

Stonegate Pubs - Supervisor

2015-present
